

# Labour Shortages Across the OECD

EALE, Bergen 6<sup>th</sup> September 2024

**Stéphane Carcillo**

Head of the Jobs and Income Division

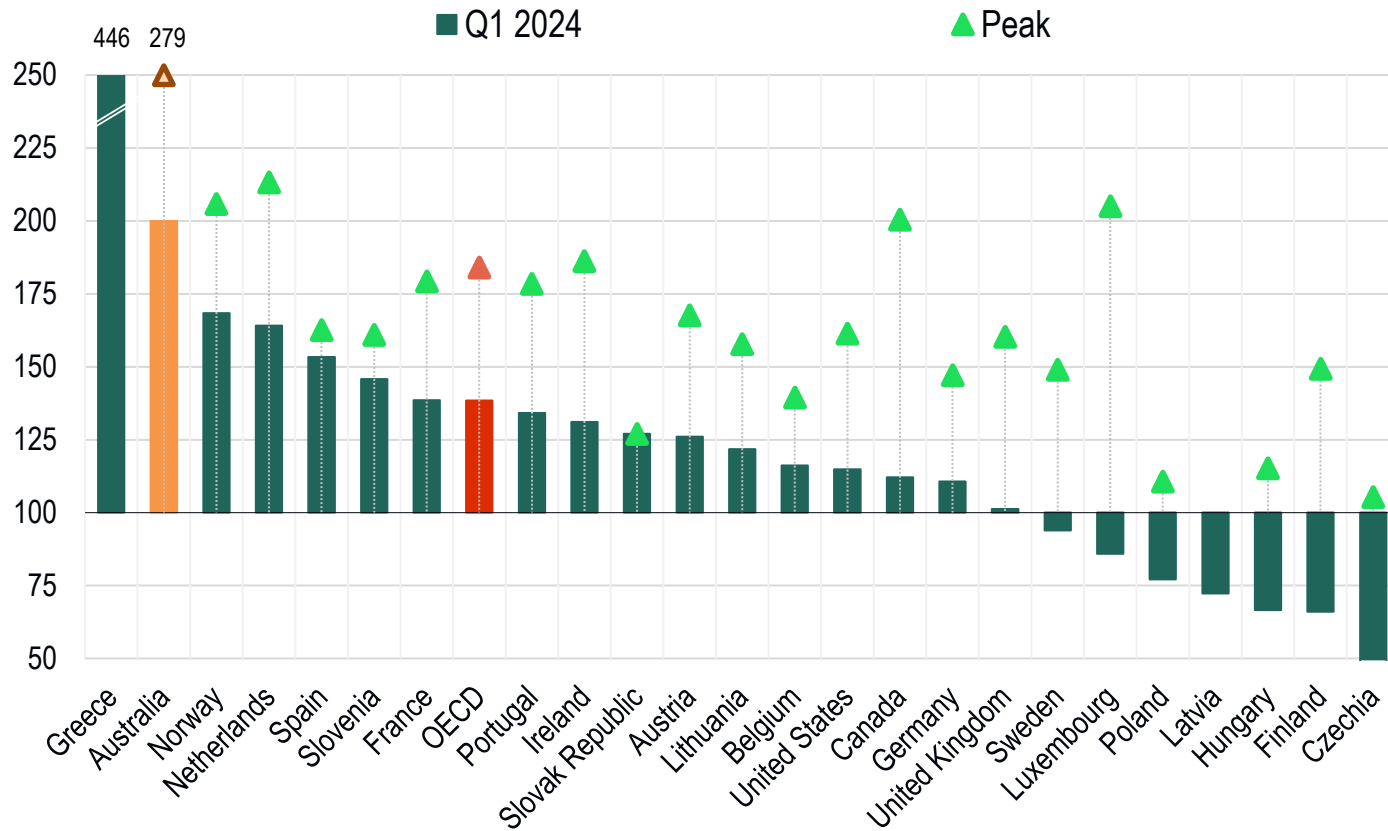

Directorate for Employment, Labour and Social Affairs

# Labour market is easing but remains generally tight

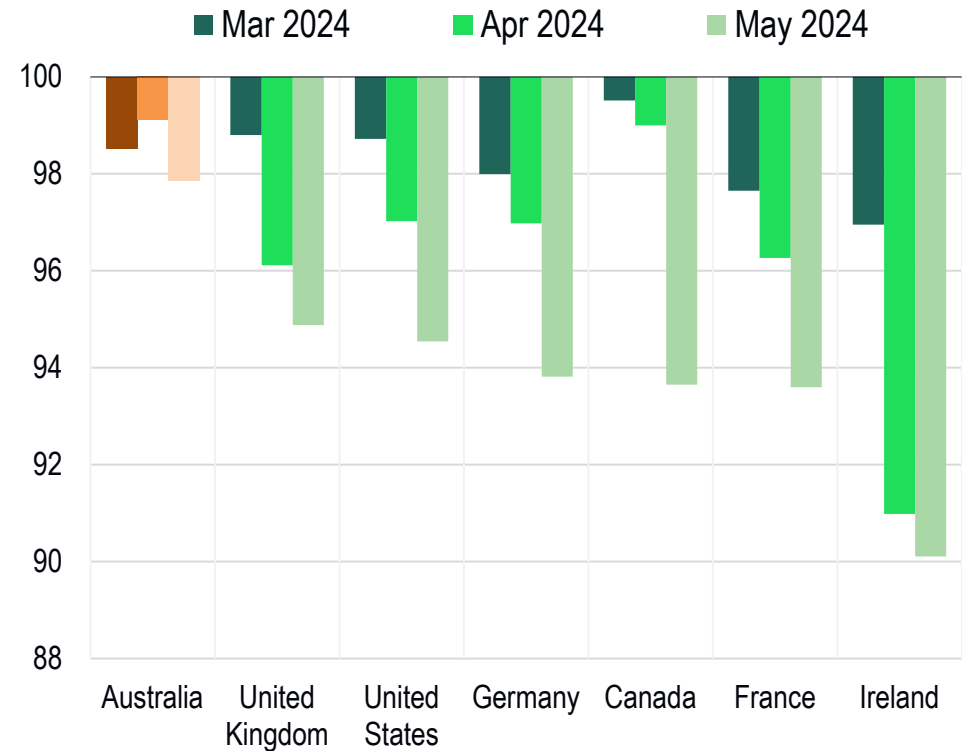

## A. Number of vacancies per unemployed person

National definitions, seasonally adjusted, base 100 in Q4 2019

## B. Online job postings

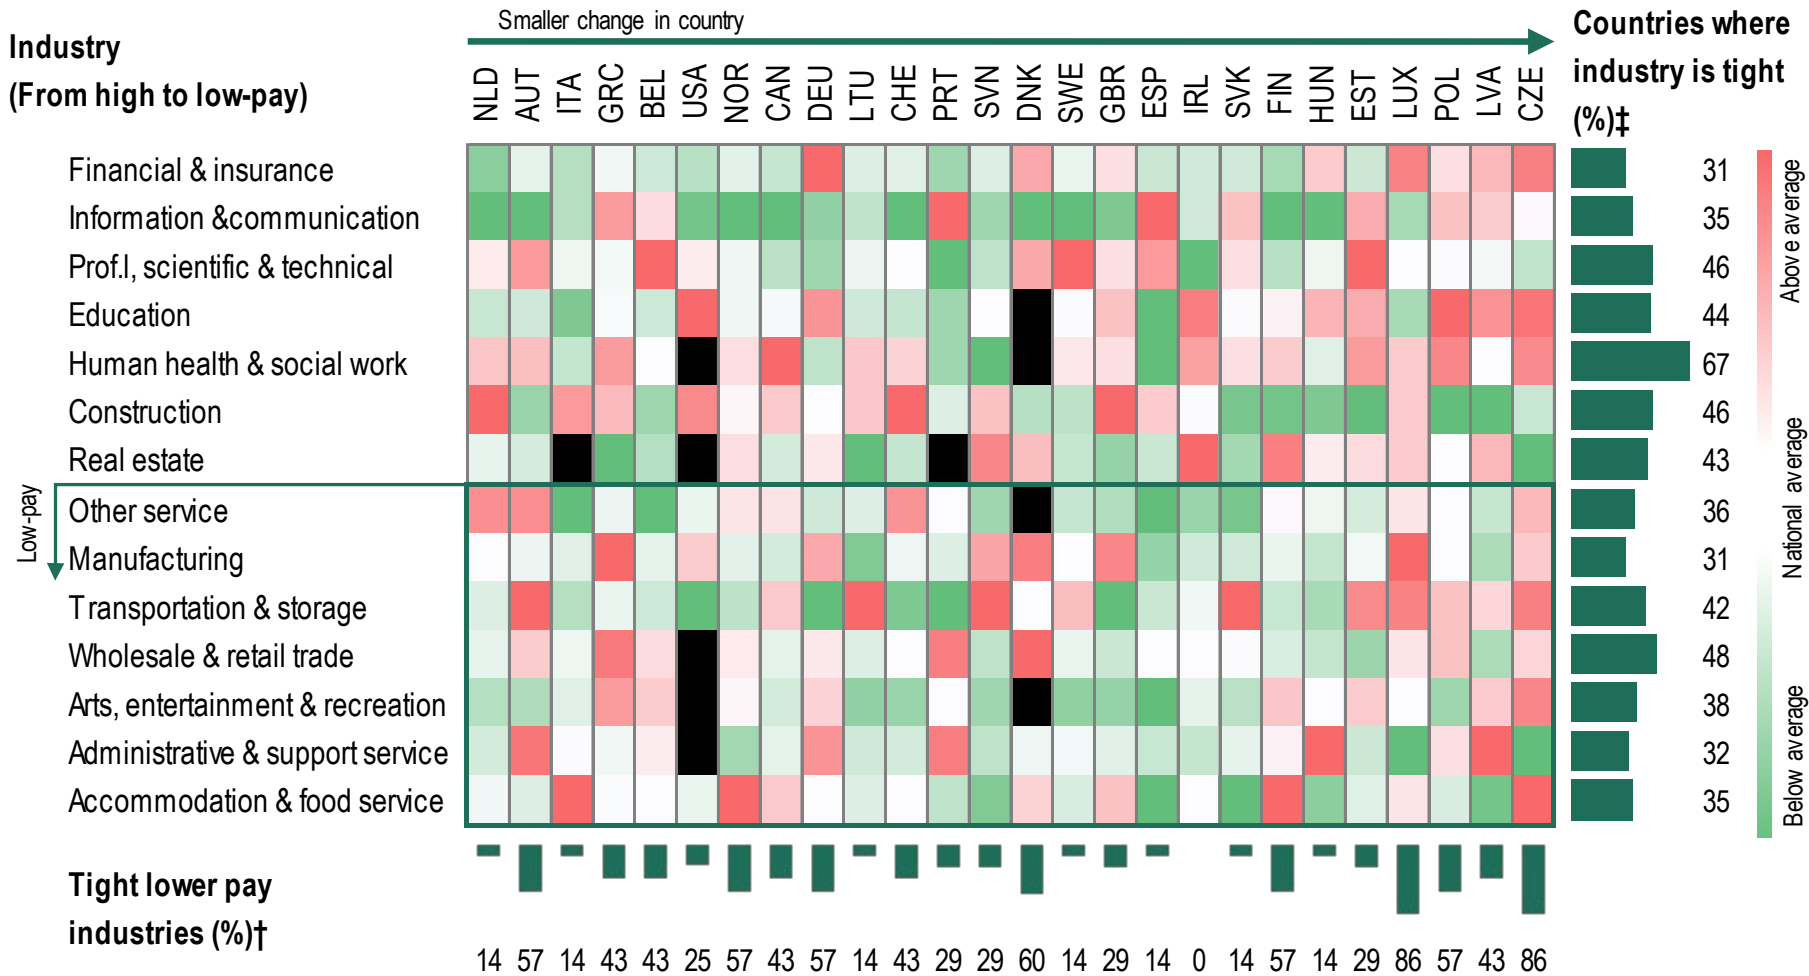

February 2024 = 100, seasonally adjusted

# Low-pay industries no longer driving shortages, but tensions remain in health

## Changes in vacancy rates by industry

Changes in vacancy rates by industry relative to the country average, Q4 2023 vs Q4 2019

# Factors behind labour shortages and challenges

Demographic changes (ageing & changes in LFP )

New skills requirement (AI, digital & green transitions)

Structural shifts and job transitions

Changes in workers preferences (working conditions)

## Policies :

- Addressing skills shortages & mismatch
- Activating underrepresented groups in the LM
- Enhancing labour mobilities
- Improving job attractiveness/quality

# Thank you
